LT. COL. PETER LERNER served as the IDF spokesman for the foreign media from 2013 - 2017. He commanded a team of 50 that communicated Israel's military stance to the world through traditional and social media. The British Sunday Express called Lt. Col. Lerner "Israel's other Iron Dome" due to his deflecting attacks on Israel during the fierce media saturated Gaza conflict. In March 2016, the JTA ranked him fifth on its most influential 'Jewish Twitter' list.
